

Tackling energy poverty in your SECAP

Where to start and how to get funded

Date: **23rd April 2018, 10:30 – 12:00** | Webinar | [Registration](#)

Concept

Are you a local authority considering taking action against energy poverty? **Are you looking for ways to finance your actions on energy poverty and to collaborate with other European cities?** Do you want to discover some best practices & learn more about how other cities are fighting energy poverty? **Do you want to know if these actions can be included in your SECAP?**

This webinar is for you!

This webinar will provide insights on how to include Energy Poverty actions in a SECAP. Through the presentation of dedicated call for proposals under the H2020 programme participants will learn how pioneer energy poverty actions could be financed. The presentation of case studies from Italy and Spain will close the webinar with some inspiring examples.

Agenda
